

Data Analytics

with R, Excel and Tableau

Session 4 - Foundational R
Programming - II

Assignment - 2

Contents

1. Introduction	2
2. Objective.....	2
3. Prerequisites.....	2
4. Associated Data Files	2
5. Problem Statement	2
6. Expected Output.....	2

1. Introduction

This assignment will help you to understand the key concepts learnt in this session.

2. Objective

This assignment will test your skills on foundational R programming – Writing Function.

3. Prerequisites

Not Applicable

4. Associated Data Files

Not Applicable

5. Problem Statement

1. `x <- c('data.science.in.R', 'machine.learning.in.R')`

Perform the below string Operation:

- Replace the period character "." within each string with another character i.e. "-" minus sign.

2. `x <- c('data.science.in.R','machine.learning.in.R')`

Perform the below String Operation:

- Append again with "-" minus sign character at the start of the each string and finally concatenate all the string within the vector to form a final single string and assigning it the object.

6. Expected Output

Not Applicable
